

Efficient & Effective

MOBILE LARGE WOOD CHIPPER

Features :-

Versatile Operation: Easily transitions between pruning, crushing, and transporting branches.

Efficient Pruning: High-power cutting stones handle large branches up to several centimeters in diameter.

Quick Crushing: Instantly breaks branches into small pieces for easy disposal.

Hydraulic Motor: Provides robust, reliable roller power.

Three-Speed Control: Manual settings for forward, stop, and reverse.

Model	TKWC-300
Shredder Inlet Size (mm)	300 x 200
Engine	Changxing CX32M-A
Engine Type	Water-cooled Diesel Engine
Power (kW/rpm)	22.8 / 2200
Starting Mode	Key Start
Discharge	360° Rotatable
Discharge Height (m)	2.5
Cutting System	Longitudinal Cutting
Cutting Blades	3 moving blades, 1 fixed blade
Production efficiency (ton/hr)	1-3
Mobility	Trailer type
