Efficient & Effective

CORE DRILL

V-80

SCY-2050

*With Vertical Stand

SCY-2550C

*With Vertical Stand

Velocity adjustable **Core Drilling Machine** have function of soft-starting constant power, overloading protection and low power consumption.

Features:

- Wet and dry drilling in different base materials is adaptable and versatile.
- For the various diameters of core bits, a high-performance 1500-watt, 2400-watt, 2450-watt motor is used to ensure optimal drilling speeds.
- With integrated dust and water management features, the side handle is 360 degrees rotatable.
- Integrated vacuum base can be attached to the base material without anchors. Very useful when drilling through ceramic floor tiles.
- SCY-2050, SCY-2550C have drill an inclined bore at the angle of 0-90 degree.

Application:

- Workshop
- Construction Site
- Air field runway
- Housing Renovation
