### POWER TILLER

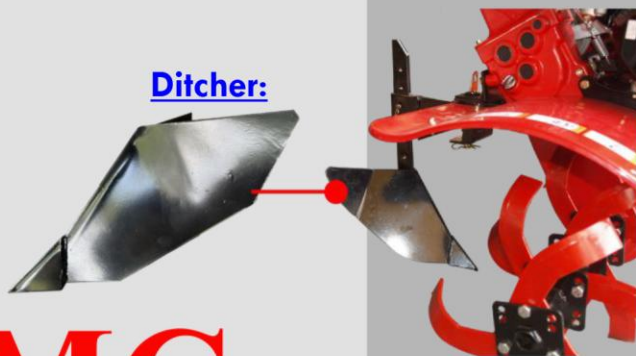

The Power Tiller (TLH-800) has a two-wheeled agricultural implement fitted with rotary tillers which gives a smooth assistance to all farm activities.

#### Features:

• A power tiller has the following equipment attached for your advantage and profits.

1. Tiller: Used for pulverizing of soil both in dry wet land by means of straight and bend dynes attached to the rotary.
2. Ridges: Used for making dyke in the field after cultivation for vegetables or orchards.
3. Ditcher: Used for making narrow drains in the field after cultivation.
4. Leveler: Leveler is attached to it for covering the soil.
5. Seed Drill: Used for sowing seeds with manure
