

*Efficient & Effective*

### MAGNETIC DRILL

The **Magnetic Drilling Machine** can make use of rotary cutters such as milling cutters, annular cutters, twist drill bits, and others.

**Application:**

- Hull construction
- Core drilling
- Steel Structure Construction
- Engineering Workshop

**\* Ideal for tough metal core drilling:**

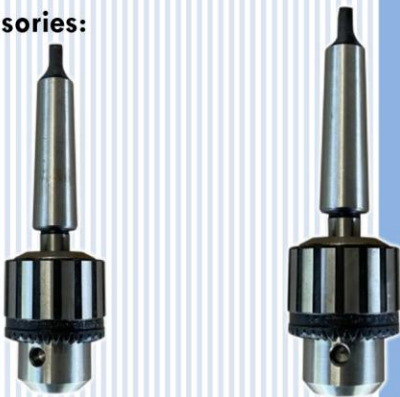

High magnetic force gives strong support to the drilling.

**Features:**

- Powerful motor for durable and efficient precise drilling.
- Convenient, durable, highly efficient and safe.

**Accessories:**

Drill Chuck 1-13mm Drill Chuck 3-16mm

Chuck Key

Tapping

Boring

Model	OB-28RE
Voltage	240 V / 50 Hz
Power	1660 W
Max Attraction	13800 N
Annular Cutter	60 mm
Twist Drill	28 mm
No-load Speed	0-300 rpm
