

## DFM-001

# Efficient & Effective

## MINI FOGGING MACHINE

The Mini Fogging Machine (DFM-001) uses heat to vaporise a fogging solution and spray it out as a visible fog could with.

### Features:

- Low-noise, light weight, mobility, low maintenance cost Mini Fogging Machine.
- Best multipurpose internal aerosol fog and spraying generation device in which flame projecting is possible.
- It can dispense a sterilising for which can be used to fumigate all kinds of harmful insects such as flies, mosquitoes, cockroaches in areas such as warehouses, parks, cattle barns, farm houses, roads, apartment complex, factories, campgrounds & etc.
- Can easily buy the gas (acralibrepropane or butane) at the shopping mall.

### Applications:

- Fogger mosquito killing machine.
- Orchard, farmland, rail yard, greenhouse, poultry field, city park and courtyard, basement, air raid shelter, trash transfer station and storehouse, automobile, train, steamship.
- Restaurant, hotel and school, hospital etc.
- Easy to disassemble and simple to maintain.
- The fogger has been designed so it is easy to disassemble for repair or cleaning.

### BUTANE GAS

**1.8 KGS**

Model	DFM-001
Fuel	Butane Gas
Butane Gas Fuel Consumption	1-2 / 1 Hour
Pharmaceutical Tank Capacity	2.8 Liter
Drug Consumption	1 Liter / H
Ignition System	Auto ignition Button
Type	Nozzle Thermal Fogging
Weight (kg)	1.8
Dimensions (L x W x H) (mm)	460 x 170 x 320
