

POWER TROWEL

Power Trowel is designed to smooth the concrete floor. Small holes and slight high spots can be leveled off by the action of the trowel.

TKT-24A suitable to use as final screeds and refurbishment works. Mostly use in working through doorways in finished buildings. Also call as Side Corner Power Trowel.

Trowel Blades:

- Trowel blades are the first component of a power trowel that will require replacement.
- Floating Pans / Floating Blades removes humps (high spots) and fills in valley (low spots).
- Finishing Blades use to produces a slab that is dense, durable and smooth. In many instances contractors will burnish the slab causing it to have a mirror-like appearance.

Model	TKT-24A
Trowel Diameter (mm)	600
Blade Dimension (W x L) (mm)	152 x 175
Trowel Speed (rpm)	50 – 100
Engine	Robin EY-20D or Equivalent
Engine Type	Air-cooled Gasoline
Max. Output (hp/rpm)	5/3600
Engine Starting System	Recoil
Weight (kg)	60
Dimension (L x W x H) (mm)	1370 x 650 x 930
